

Online Safety Policy

North Scarle Primary School

‘Choosing to be Successful’

Approved by:	Full Governing Body	Date: October 2023
Last reviewed on:	September 2023	
Next review due by:	September 2024	

Our School Vision

As an **inclusive** primary school, we work towards unlocking the potential of ALL our children, regardless of their starting points and perceived limits, so they can be happy and become the most **successful** version of themselves.

We aim to achieve this by providing a safe, nurturing and **inspiring** learning environment that supports our children both physically and emotionally.

Our successes are built on shared values and high expectations, provided by an aspirational and **enriched** curriculum and a supportive community.

“Success is not the key to happiness. Happiness is the key to success. If you love what you are doing, you will be successful.” (Herman Cain)

Our School Values

Happines

Learn

Succeed

Scope of the Policy

This policy applies to all members of North Scarle Primary school community (including staff, students/pupils, volunteers, parents/carers, visitors, community users) who have access to and are users of school digital technology systems, both in and out of the school.

The Education and Inspections Act 2006 empowers Headteachers/Principals to such extent as is reasonable, to regulate the behaviour of students/pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of online-bullying or other online safety incidents covered by this policy, which may take place outside of the school, but is linked to membership of the school/academy. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data and in July 2022 the DfE released advice for schools on 'Searching, Screening and Confiscation.' In the case of both acts and advice, action can only be taken over issues covered by the published Promoting Positive Behaviour Policy.

The school will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

Roles and Responsibilities

The following section outlines the online safety roles and responsibilities of individuals and groups within the school.

Governors

Governors are responsible for the approval of the online safety policy and for reviewing the effectiveness of the policy. The Safeguarding Governor will meet termly with the Headteacher and review the number and type of safety incidents to establish the effectiveness of the policy.

Headteacher

- The Headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community.
- The Headteacher and Deputy Designated Safeguarding Lead should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff. (see flow chart on dealing with online safety incidents – included in a later section – “Responding to incidents of misuse” and relevant Local Authority disciplinary procedures).

Network Manager/Technical staff (ARK IT Solutions)

ARK IT Solutions are responsible for ensuring:

- **that the school's technical infrastructure is secure and is not open to misuse or malicious attack**
- **that the school meets required online safety technical requirements and any other relevant body online safety policy/guidance that may apply.**

- **that users may only access the networks and devices through a properly enforced password protection policy**
- the filtering policy is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person
- that they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- that the use of the networks/internet/digital technologies is regularly monitored in order that any misuse/attempted misuse can be reported to the Headteacher for investigation/action/sanction.

Teaching and Support Staff

Are responsible for ensuring that:

- **they have an up to date awareness of online safety matters and of the current school online safety policy and practices**
- **they report any suspected misuse or problem to the Headteacher for investigation/action/sanction**
- **all digital communications with students/pupils/parents/carers should be on a professional level and only carried out using official school systems**
- online safety issues are embedded in all aspects of the curriculum and other activities
- students/pupils understand and follow the Online Safety Policy and acceptable use policies
- students/pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras, etc. in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned students/pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Designated Safeguarding Leads

Should be trained in online safety issues and be aware of the potential for serious child protection/safeguarding issues to arise from:

- sharing of personal data
- access to illegal/inappropriate materials
- inappropriate on-line contact with adults/strangers
- potential or actual incidents of grooming
- online-bullying

Students/Pupils:

- **are responsible for using the school digital technology systems in accordance with the student/pupil acceptable use agreement**
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking/use of images and on online-bullying.
- should understand the importance of adopting good online safety practice when using digital technologies outside of school and realise that our school's online safety policy covers their actions out of school, if related to their membership of the school.

Parents/carers

Parents/carers play a crucial role in ensuring that their children understand the need to use the internet/mobile devices in an appropriate way. The school will take every opportunity to help parents understand these issues through newsletters, letters, website, social media and information about national/local online safety campaigns/literature. Parents and carers will be encouraged to support the school/academy in promoting good online safety practice.

Policy Statements

Education – Pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating students to take a responsible approach. The education of students/pupils in online safety/digital literacy is therefore an essential part of the school's online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- **A planned online safety curriculum should be provided as part of Computing/PHSE/other lessons and should be regularly revisited**
- **Key online safety messages should be reinforced as part of a planned programme of assemblies and tutorial/pastoral activities**
- **Students/pupils should be taught in all lessons to be critically aware of the materials/content they access on-line and be guided to validate the accuracy of information.**
- **Students/pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet**

- **Students/pupils should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making.**
- Students/pupils should be helped to understand the need for the student/pupil acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school.
- Staff should act as good role models in their use of digital technologies, the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that students/pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where students/pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.
- It is accepted that from time to time, for good educational reasons, students may need to research topics (e.g.racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff (or other relevant designated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.

Education – Parents/carers

Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring/regulation of the children’s online behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school/academy will therefore seek to provide information and awareness to parents and carers through:

- Letters, newsletters, web site,
- High profile events/campaigns e.g. Safer Internet Day

Education & Training – Staff/Volunteers

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- **A planned programme of formal online safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.**
- **All new staff should receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements.**

- It is expected that some staff will identify online safety as a training need within the performance management process.
- This online safety policy and its updates will be presented to and discussed by staff in staff/team meetings/training sessions

Training – Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any group involved in technology/online safety/health and safety /safeguarding. This may be offered in a number of ways:

- Attendance at training provided by National Governors Association
- Participation in school training/information sessions for staff or parents

The school will be responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their online safety responsibilities:

School technical systems will be managed in ways that ensure that the school meets recommended technical requirements

- **servers, wireless systems and cabling must be securely located and physical access restricted**
- **All users will have clearly defined access rights to school/ technical systems and devices.**
- **All users will be provided with a username and secure password**
- The Headteacher is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations (Inadequate licensing could cause the school to breach the Copyright Act which could result in fines or unexpected licensing costs)
- **Internet access is filtered for all users.** Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored.
- Internet filtering/monitoring should ensure that children are safe from terrorist and extremist material when accessing the internet.
- The school has provided enhanced/differentiated user-level filtering (allowing different filtering levels for different ages/stages and different groups of users – staff/pupils/students etc)
- School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the acceptable use agreement.
- Appropriate security measures are in to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices, etc. from accidental or malicious attempts which

might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual devices are protected by up to date virus software.

Mobile Technologies (including BYOD/BYOT)

Mobile technology devices may be school owned/provided or personally owned and might include: smartphone, tablet, notebook/laptop or other technology that usually has the capability of utilising the school’s wireless network. The device then has access to the wider internet which may include the school’s learning platform and other cloud-based services such as email and data storage.

All users should understand that the primary purpose of the use mobile/personal devices in a school context is educational. The mobile technologies policy should be consistent with and inter-related to other relevant school policies including but not limited to the safeguarding policy, behaviour policy, bullying policy, acceptable use policy, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school’s online safety education programme.

- **The school acceptable use agreements for staff, pupils/students and parents/carers will give consideration to the use of mobile technologies**
- **The school allows:**

	School Devices			Personal Devices		
	School owned for single user	School owned for multiple users	Authorised device	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes		Yes	Yes
Full network access	Yes	Yes	Yes			
Internet only					Yes	Yes

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and students/pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents/carers and students/pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for online bullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks.

When using digital images, staff should inform and educate students/pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they

should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.

- **Written permission from parents or carers will be obtained before photographs of students/pupils are published on the school website/social media/local press**
- In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other students/pupils in the digital/video images.
- Staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school/academy policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment; the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital/video images that students/pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school/academy into disrepute.
- Students/pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include students/pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Students'/Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Student's/Pupil's work can only be published with the permission of the student/pupil and parents or carers.

Data Protection

Personal data will be recorded, processed, transferred and made available according to the current data protection legislation.

When personal data is stored on any mobile device or removable media the:

- **data must be encrypted and password protected.**
- **device must be password protected.**
- **device must be protected by up to date virus and malware checking software**
- **data must be securely deleted from the device, in line with school/academy policy (below) once it has been transferred or its use is complete.**

Staff must ensure that they:

- **at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse**
- **can recognise a possible breach, understand the need for urgency and know who to report it to within the school**

- can help data subjects understand their rights and know how to handle a request whether verbal or written. Know who to pass it to in the school
- where personal data is stored or transferred on mobile or other devices (including USBs) these must be encrypted and password protected.
- will not transfer any school/academy personal data to personal devices except as in line with school policy
- access personal data sources and records only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data

Communications

When using communication technologies, the school considers the following as good practice:

- **The official school email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored.**
- **Users must immediately report, to the nominated person – in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.**
- **Any digital communication between staff and students/pupils or parents/carers (email, social media, chat, blogs, VLE etc) must be professional in tone and content.**
- Students/pupils should be taught about online safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

Social Media - Protecting Professional Identity

All schools, academies, MATs and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools/academies, MATs and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, engage in online bullying, discriminate on the grounds of sex, race or disability or who defame a third party may render the school or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through:

- Ensuring that personal information is not published
- Training is provided including: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions

- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in social media to students/pupils, parents/carers or school staff.
- They do not engage in online discussion on personal matters relating to members of the school community.
- Personal opinions should not be attributed to the school.
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.

Personal Use:

- Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- Personal communications which do not refer to or impact upon the school are outside the scope of this policy
- Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken

Monitoring of Public Social Media:

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school
- The school should effectively respond to social media comments made by others according to a defined policy or process

Dealing with unsuitable/inappropriate activities

Some internet activity e.g. accessing child abuse images or distributing racist material is illegal and would obviously be banned from school and all other technical systems. Other activities e.g. cyberbullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school context, either because of the age of the users or the nature of those activities.

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in/or outside the school when using school equipment or systems. The school policy restricts usage as follows:

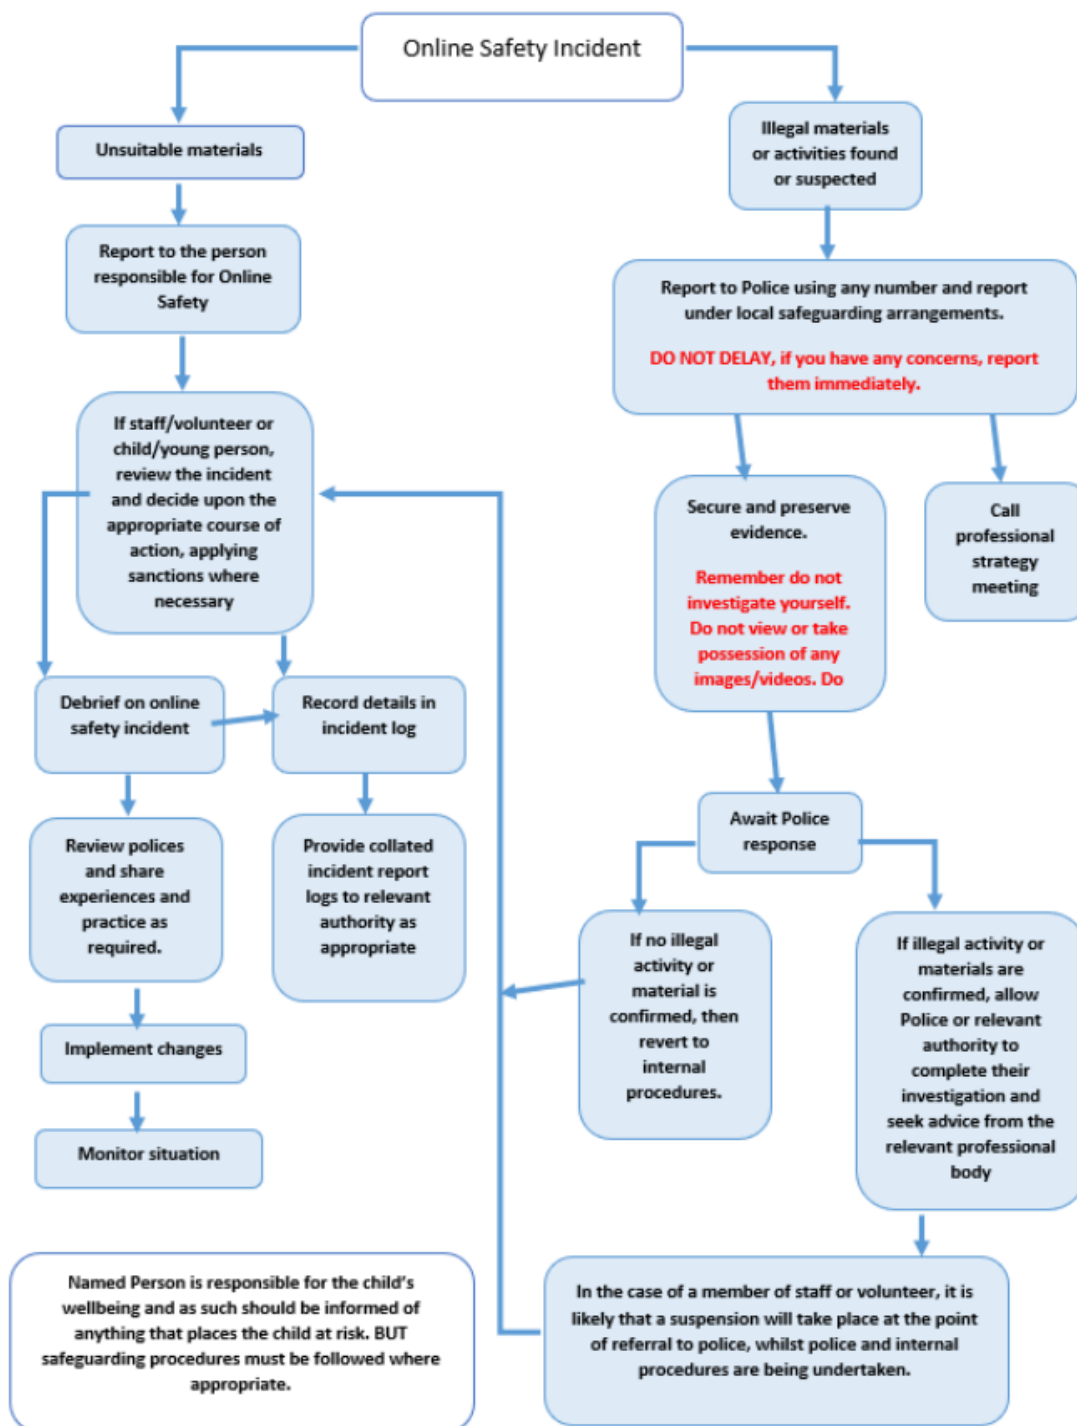

User Actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978 N.B. Schools/academies should refer to guidance about dealing with self-generated images/sexting – UKSIC Responding to and managing sexting incidents and UKCIS – Sexting in schools and colleges					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	Criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	Pornography				X	
	Promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	Promotion of extremism or terrorism				X	
	Any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Activities that might be classed as cyber-crime under the Computer Misuse Act: <ul style="list-style-type: none"> • Gaining unauthorised access to school networks, data and files, through the use of computers/devices • Creating or propagating computer viruses or other harmful files • Revealing or publicising confidential or proprietary information (e.g. financial / personal information, databases, computer / network access codes and passwords) • Disable/Impair/Disrupt network functionality through the use of computers/devices • Using penetration testing equipment (without relevant permission) 					x	
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school				X		
Revealing or publicising confidential or proprietary information (e.g. financial/personal information, databases, computer/network access codes and passwords)				x		
Unfair usage (downloading/uploading large files that hinders others in their use of the internet)				X		
Using school systems to run a private business				X		
Infringing copyright				X		
On-line gaming (educational)		X				
On-line gaming (non-educational)		X				
On-line gambling				X		
On-line shopping/commerce		X				
File sharing		X				
Use of social media		X				
Use of messaging apps		X				
Use of video broadcasting e.g. Youtube		X				

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above).

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right-hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

Other Incidents

It is hoped that all members of our school community will be responsible users of digital technologies, who understand and follow school policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
 - o Internal response or discipline procedures
 - o Involvement by Local Authority
 - o Police involvement and/or action
- **If content being reviewed includes images of child abuse, then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:**
 - o incidents of 'grooming' behaviour
 - o the sending of obscene materials to a child
 - o adult material which potentially breaches the Obscene Publications Act
 - o criminally racist material o promotion of terrorism or extremism
 - o offences under the Computer Misuse Act (see User Actions chart above)
 - o other criminal conduct, activity or materials
- **Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.**

It is important that all of the above steps are taken as they will provide an evidence trail for the school and possibly the police and demonstrate that visits to these sites were carried out for safeguarding purposes. The completed form should be retained by the group for evidence and reference purposes.

School actions & sanctions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

Students/Pupils Incidents

	Refer to class teacher	Refer to Headteacher	Refer to Police	Refer to technical support staff for action re filtering/security etc.	Inform parents/carers	Removal of network/internet access rights	Warning	Further sanction e.g. detention/exclusion
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable/inappropriate activities).		X	X					
Unauthorised use of non-educational sites during lessons	x							
Unauthorised/inappropriate use of mobile phone/digital camera/other mobile device		x			x			
Unauthorised/inappropriate use of social media/messaging apps/personal email		x			x			
Unauthorised downloading or uploading of files		x						
Allowing others to access school/academy network by sharing username and passwords		x						
Attempting to access or accessing the school/academy network, using another student's/pupil's account		x						
Attempting to access or accessing the school/academy network, using the account of a member of staff		x						
Corrupting or destroying the data of other users		x			x			

Staff Incidents	Refer to Local Authority/HR	Refer to Police	Refer to Technical Support Staff for action re filtering etc.	Warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable/inappropriate activities).	X	X				X
Inappropriate personal use of the internet/social media/personal email	X					
Unauthorised downloading or uploading of files	X					
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account	X					

Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature	X			X			
Continued infringements of the above, following previous warnings or sanctions	X			X	X	X	X
Actions which could bring the school into disrepute or breach the integrity of the ethos of the school	X			X	X		
Using proxy sites or other means to subvert the school's filtering system	X			X	X		
Accidentally accessing offensive or pornographic material and failing to report the incident	X			X	X		
Deliberately accessing or trying to access offensive or pornographic material	X			X	X	X	X
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act	X	X	X	X	X	X	X

Careless use of personal data e.g. holding or transferring data in an insecure manner	x			x	
Deliberate actions to breach data protection or network security rules	x			x	x
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software	x	x			x
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature	x				
Using personal email/social networking/instant messaging/text messaging to carrying out digital communications with students/pupils	x				x
Actions which could compromise the staff member's professional standing	x				
Actions which could bring the school/academy into disrepute or breach the integrity of the ethos of the school	x				
Using proxy sites or other means to subvert the school's filtering system	x				
Accidentally accessing offensive or pornographic material and failing to report the incident	x				x
Deliberately accessing or trying to access offensive or pornographic material	x				x
Breaching copyright or licensing regulations	x				
Continued infringements of the above, following previous warnings or sanctions	x				x

Further actions/notes made by senior member of staff and/or group investigating:

A large, empty rectangular box with a thin black border, intended for recording further actions or notes made by a senior member of staff and/or an investigating group. The box occupies most of the page below the text prompt.
